Dengue Awareness Lecture

The Philippine Heart Center-Infection Control Committee (ICC) took part in the anti-dengue campaign of the Department of Health (DOH) in coordination with the Human Resource Management Division (HRMD). Following the declaration of national dengue outbreak last 06 August 2019, the ICC facilitated the Dengue Awareness lecture for all PHC personnel on 14 August 2019 at the Children’s Heart Foundation Grand Auditorium (Foyer Area), 3rd Floor PHC Annex Building.

The discussion was facilitated by Ms. Nerissa Peñaflor, RN, HEPO III, from Quezon City Health Department. The aim of the lecture was to strengthen the awareness on Dengue Fever among PHC personnel with great emphasis on the prevention of Dengue virus, the “4S Strategy”.

At the end of the discussion, the “question and answer” portion took place which the attendees energetically participated in. A brief summary of the key points was also given by the PHC Hospital Infection Control Office (HICO) Nurse, Ms. Ana Marie P. Dy, RN, to wrap up the session.

Indeed, awareness is one of the keys in establishing realization that everybody plays a major role in taking steps to control mosquitos both in the work place and at home.
