

PHILIPPINE HEART CENTER BULLETIN

Volume 1 | Issue 21

August 2021

COVID cases escalates, PHC ER Special Triage at full capacity.

PHC ADVISORY

As of 26 August 2021 6:00pm

The Philippine Heart Center will **TEMPORARILY SUSPEND CONSULTATIONS** while the ER Special Triage is **over capacity**. All COVID units for moderate to critical patients are also **FULL** and can not accommodate new admissions.

We will resume ER consultations for new patients as soon as current patients are given proper and safe disposition.

We sincerely thank you for your support and understanding.

For urgent COVID concerns, you may call ER Special Triage hotline:
Tel. No. 89252401 local 2143 or 2163
(Globe) 0977 846 4526

COVID testing with GeneXpert System at the Molecular Laboratory

GeneXpert System

It is a cartridge based nucleic acid amplification test or CBNAAT

The sensitivity of the Xpert Xpress SARS-CoV-2 assay is 100% and the specificity is 93.9% @95% CI.

Reagents in 1 cartridge

1. Reagents for the detection of RNA from SARS-CoV-2
2. Sample Processing Control (SPC)
3. Probe Check Control (PCC)

Vaccination of PHC Employees & Dependents
