

**PHC HCWs: League of Modern-day Heroes**

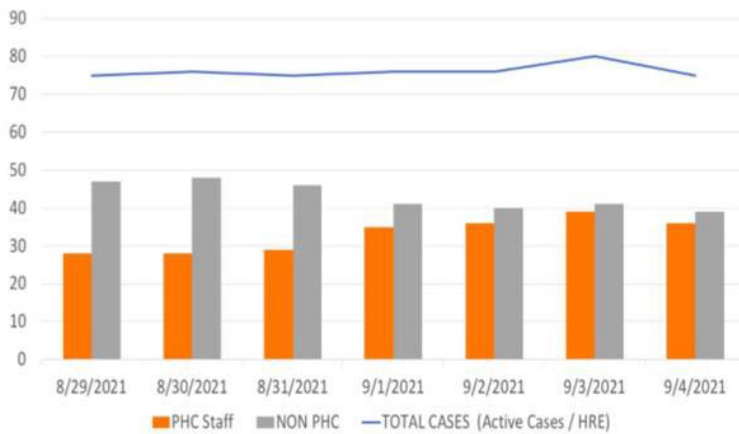

The "National Heroes Day," has been a reminder that our frontliners- the healthcare workers and the essential non-medical staff are the modern-day heroes in these unprecedented times. We honor the bravery of these people who go beyond the call of duty, their sublime undertaking embodies the traits of a true hero.

Warm welcome to our newly hired staff! Thank you for joining the league of modern-day heroes!

**PAPRs For Our HCWs**

The PHC equips our frontliners with Powered Air Purifying Respirator (PAPR), a type of respirator used to safeguard workers against contaminated air. PAPRs consist of a turbo respirator, breathing tube, hood and flow teste which actively removes (filters) a sufficient proportion of these hazards, and then delivers the clean air to the user's face or mouth and nose. These PAPR will be given to ER Special Triage staff .

He sent them to preach the kingdom of God and to heal the sick. (Luke 9:2 )

## Daily Covid Census

### HELP CHEER our WORKFORCE

Our News team chanced upon one of our staff pushing a ward cart. In it were belongings which we thought were that of a patient's. Only partly true. It was hers – and she was THE patient.

Fearing to expose her family, she had herself admitted.

She facilitated her own discharge.

She was already being plotted for her next ON DUTY schedule, even as we chatted.

Such is the story of most of us. Sick from Covid19 or from whatever ailment, our duty CALLS us to prefer others before our own; to daily, get up and out of that comfy bed, and to, in whatever capacity (Respiratory Therapist, Nurse, Doctor, Admission or WARD Clerk, Guard, Food Service, OR Staff, Janitorial, the list of Hospital Staff is endless), **HELP SERVE AND HEAL THE SICK.**

Have we appreciated our HCW and FRONTLINERS lately? **HELP CHEER our WORKFORCE.**
