

# PHILIPPINE HEART CENTER BULLETIN

ISSUE NO. 28 OCTOBER 2021

## PHC-DOH PILOT PEDIA COVID-19 A3 VACCINATION ROLLOUT

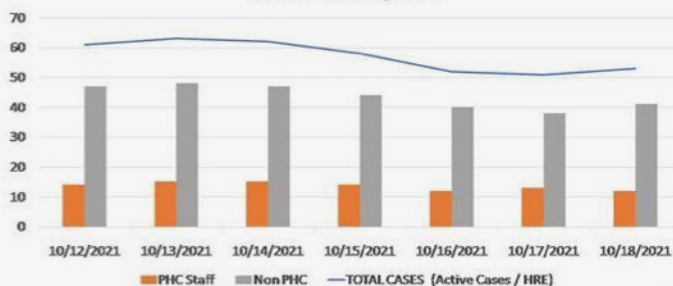

15 OCTOBER 2021

The Philippine Heart Center was among the eight participating hospitals in the National Capital Region (NCR) who facilitated the pilot run of pediatric vaccination of 12 to 17 year old children with comorbidities. The vaccination of the A3 group was part of the wider coverage of the COVID-19 vaccination roll-out in the country. A total of 447 children in this age group with comorbidities received the Pfizer vaccine. The PHC Vaccination Team was behind the successful initial run of the vaccination, where the A3 group underwent the usual process of screening, counseling, vaccination and monitoring.
