

BULLETIN

National Daily Covid Census

Jan 4 - Jan 18, 2022

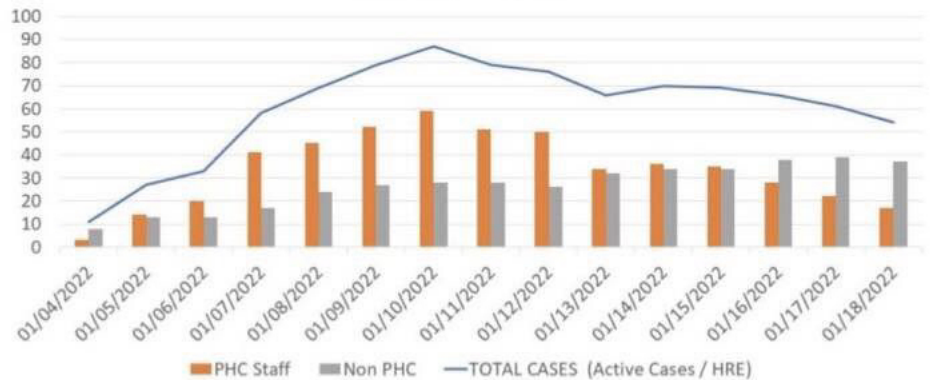

Although a far cry from our December Covid census, we continue to observe an encouraging downward trend in the National Daily Covid Census. This trend is reassuringly mirrored in our PHC Daily Covid Census and the number of Health care Workers with positive SARSCOV2 test.

The challenge of providing adequate Staff in each unit, brought about by the Covid Surge, prompted an updated Isolation and Quarantine Guidelines.

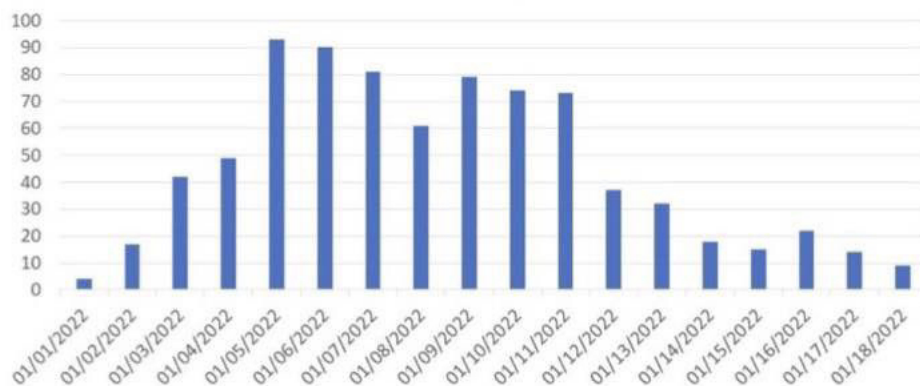

PHC Covid Care Census

Jan 4 - Jan 18, 2022

PHC HCWs Covid Census

Jan 4 - Jan 18, 2022
