National Daily Covid Census

Feb 1 - Feb 8, 2022

With the continuous decline on the National Daily Covid Census, the NCR is now at Alert Level 2. There has been ongoing deliberation from the government and infectious disease experts to de-escalate NCR to Alert Level 1. However, the Department of Health (DOH) recommends that the hospital system should be stable, as well as the vaccination, safety seal certification, to ensure safe spaces in our community if ever we would de-escalate.
